FISH & RICHARDSON P.C.
PO BOX 1022
MINNEAPOLIS, MN 55440-1022

EXAMINER

AGWUMEZIE, CHARLES C

ART UNIT

PAPER NUMBER

3685

DATE MAILED: 05/23/2011

APPLICATION NO.	FILING DATE	FIRST NAMED INVENTOR	ATTORNEY DOCKET NO.	CONFIRMATION NO.
09/704,254	11/01/2000	Blaine Garst	19004-009002	3557

TITLE OF INVENTION: SYSTEM METHOD AND APPARATUS FOR AUTHORIZING ACCESS

APPLN. TYPE	SMALL ENTITY	ISSUE FEE DUE	PUBLICATION FEE DUE	PREV. PAID ISSUE FEE	TOTAL FEE(S) DUE	DATE DUE
nonprovisional	NO	\$1510	\$0	\$0	\$1510	08/23/2011

THE APPLICATION IDENTIFIED ABOVE HAS BEEN EXAMINED AND IS ALLOWED FOR ISSUANCE AS A PATENT. PROSECUTION ON THE MERITS IS CLOSED. THIS NOTICE OF ALLOWANCE IS NOT A GRANT OF PATENT RIGHTS. THIS APPLICATION IS SUBJECT TO WITHDRAWAL FROM ISSUE AT THE INITIATIVE OF THE OFFICE OR UPON PETITION BY THE APPLICANT. SEE 37 CFR 1.313 AND MPEP 1308.

THE ISSUE FEE AND PUBLICATION FEE (IF REQUIRED) MUST BE PAID WITHIN THREE MONTHS FROM THE MAILING DATE OF THIS NOTICE OR THIS APPLICATION SHALL BE REGARDED AS ABANDONED. THIS STATUTORY PERIOD CANNOT BE EXTENDED. SEE 35 U.S.C. 151. THE ISSUE FEE DUE INDICATED ABOVE DOES NOT REFLECT A CREDIT FOR ANY PREVIOUSLY PAID ISSUE FEE IN THIS APPLICATION. IF AN ISSUE FEE HAS PREVIOUSLY BEEN PAID IN THIS APPLICATION (AS SHOWN ABOVE), THE RETURN OF PART B OF THIS FORM WILL BE CONSIDERED A REQUEST TO REAPPLY THE PREVIOUSLY PAID ISSUE FEE TOWARD THE ISSUE FEE NOW DUE.

HOW TO REPLY TO THIS NOTICE:

I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status above is to be removed, check box 5b on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above, or

If the SMALL ENTITY is shown as NO:

A. Pay TOTAL FEE(S) DUE shown above, or

B. If applicant claimed SMALL ENTITY status before, or is now claiming SMALL ENTITY status, check box 5a on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and 1/2 the ISSUE FEE shown above.

II. PART B - FEE(S) TRANSMITTAL, or its equivalent, must be completed and returned to the United States Patent and Trademark Office (USPTO) with your ISSUE FEE and PUBLICATION FEE (if required). If you are charging the fee(s) to your deposit account, section "4b" of Part B - Fee(s) Transmittal should be completed and an extra copy of the form should be submitted. If an equivalent of Part B is filed, a request to reapply a previously paid issue fee must be clearly made, and delays in processing may occur due to the difficulty in recognizing the paper as an equivalent of Part B.

III. All communications regarding this application must give the application number. Please direct all communications prior to issuance to Mail Stop ISSUE FEE unless advised to the contrary.

IMPORTANT REMINDER: Utility patents issuing on applications filed on or after Dec. 12, 1980 may require payment of maintenance fees. It is patentee's responsibility to ensure timely payment of maintenance fees when due.

PART B - FEE(S) TRANSMITTAL

Complete and send this form, together with applicable fee(s), to: Mail

**Mail Stop ISSUE FEE
Commissioner for Patents
P.O. Box 1450
Alexandria, Virginia 22313-1450
or Fax (571)-273-2885**

INSTRUCTIONS: This form should be used for transmitting the **ISSUE FEE** and **PUBLICATION FEE** (if required). Blocks 1 through 5 should be completed where appropriate. All further correspondence including the Patent, advance orders and notification of maintenance fees will be mailed to the current correspondence address as indicated unless corrected below or directed otherwise in Block 1, by (a) specifying a new correspondence address; and/or (b) indicating a separate "FEE ADDRESS" for maintenance fee notifications.

CURRENT CORRESPONDENCE ADDRESS (Note: Use Block 1 for any change of address)

Note: A certificate of mailing can only be used for domestic mailings of the Fee(s) Transmittal. This certificate cannot be used for any other accompanying papers. Each additional paper, such as an assignment or formal drawing, must have its own certificate of mailing or transmission.

AGWUMEZIE, CHARLES C	3685	705-059000

1. Change of correspondence address or indication of "Fee Address" (37 CFR 1.363).

☐ Change of correspondence address (or Change of Correspondence Address form PT09/SB(12) attached);

☐ "Fee Address" indication (or "Fee Address" Indication form PT08/47; Rev 03-02 or more recent) attached. Use of a **Customer Number is required.**

2. For printing on the patent front page, list

(1) the names of up to 3 registered patent attorneys or agents OR, alternatively,

(2) the name of a single firm (having as a member a registered attorney or agent) and the names of up to 2 registered patent attorneys or agents. If no name is listed, no name will be printed.

3. ASSIGNEE NAME AND RESIDENCE DATA TO BE PRINTED ON THE PATENT (print or type)

PLEASE NOTE: Unless an assignee is identified below, no assignee data will appear on the patent. If an assignee is identified below, the document has been filed for recordation as set forth in 37 CFR 3.111. Completion of this form is NOT a substitute for filing an assignment.

(A) NAME OF ASSIGNEE

(B) RESIDENCE: (CITY and STATE OR COUNTRY)

Please check the appropriate assignee category or categories (will not be printed on the patent): ☐ Individual ☐ Corporation or other private group entity ☐ Government

4a. The following fee(s) are submitted:

- ☐ Issue Fee
☐ Publication Fee (No small entity discount permitted)
☐ Advance Order - # of Copies _____

4b. Payment of Fee(s): (Please first reapply any previously paid issue fee shown above)

- ☐ A check is enclosed.
☐ Payment by credit card. Form PT0-2038 is attached.
☐ The Director is hereby authorized to charge the required fee(s), any deficiency, or credit any overpayment, to Deposit Account Number _____ (enclose an extra copy of this form).

5. **Change in Entity Status** (from status indicated above)

- ☐ a. Applicant claims **SMALL ENTITY** status. See 37 CFR 1.27. ☐ b. Applicant is no longer claiming **SMALL ENTITY** status. See 37 CFR 1.27(g)(2).

NOTE: The Issue Fee and Publication Fee (if required) will not be accepted from anyone other than the applicant; a registered attorney or agent; or the assignee or other party in interest as shown by the records of the United States Patent and Trademark Office.

Authorized Signature _____ Date _____

Typed or printed name _____ Registration No. _____

This collection of information is required by 37 CFR 1.311. The information is required to obtain or retain a benefit by the public which is to file (and by the USPTO to process) an application. Confidentiality is governed by 35 U.S.C. 122 and 37 CFR 1.14. This collection is estimated to take 12 minutes to complete, including gathering, preparing, and submitting the completed application form to the USPTO. Time will vary depending upon the individual case. Any comments on the amount of time you require to complete this form and/or suggestions for reducing this burden, should be sent to the Chief Information Officer, U.S. Patent and Trademark Office, U.S. Department of Commerce, P.O. Box 1450, Alexandria, Virginia 22313-1450. DO NOT SEND FEES OR COMPLETED FORMS TO THIS ADDRESS. SEND TO: Commissioner for Patents, P.O. Box 1450, Alexandria, Virginia 22313-1450.

Under the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number.

Determination of Patent Term Adjustment under 35 U.S.C. 154 (b) (application filed on or after May 29, 2000)

The Patent Term Adjustment to date is 540 day(s). If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the Patent Term Adjustment will be 540 day(s).

If a Continued Prosecution Application (CPA) was filed in the above-identified application, the filing date that determines Patent Term Adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) WEB site (<http://pair.uspto.gov>).

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office of Patent Legal Administration at (571)-272-7702. Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at 1-(888)-786-0101 or (571)-272-4200.

Privacy Act Statement

The Privacy Act of 1974 (P.L. 93-579) requires that you be given certain information in connection with your submission of the attached form related to a patent application or patent. Accordingly, pursuant to the requirements of the Act, please be advised that: (1) the general authority for the collection of this information is 35 U.S.C. 2(b)(2); (2) furnishing of the information solicited is voluntary; and (3) the principal purpose for which the information is used by the U.S. Patent and Trademark Office is to process and/or examine your submission related to a patent application or patent. If you do not furnish the requested information, the U.S. Patent and Trademark Office may not be able to process and/or examine your submission, which may result in termination of proceedings or abandonment of the application or expiration of the patent.

The information provided by you in this form will be subject to the following routine uses:

1. The information on this form will be treated confidentially to the extent allowed under the Freedom of Information Act (5 U.S.C. 552) and the Privacy Act (5 U.S.C. 552a). Records from this system of records may be disclosed to the Department of Justice to determine whether disclosure of these records is required by the Freedom of Information Act.
2. A record from this system of records may be disclosed, as a routine use, in the course of presenting evidence to a court, magistrate, or administrative tribunal, including disclosures to opposing counsel in the course of settlement negotiations.
3. A record in this system of records may be disclosed, as a routine use, to a Member of Congress submitting a request involving an individual, to whom the record pertains, when the individual has requested assistance from the Member with respect to the subject matter of the record.
4. A record in this system of records may be disclosed, as a routine use, to a contractor of the Agency having need for the information in order to perform a contract. Recipients of information shall be required to comply with the requirements of the Privacy Act of 1974, as amended, pursuant to 5 U.S.C. 552a(m).
5. A record related to an International Application filed under the Patent Cooperation Treaty in this system of records may be disclosed, as a routine use, to the International Bureau of the World Intellectual Property Organization, pursuant to the Patent Cooperation Treaty.
6. A record in this system of records may be disclosed, as a routine use, to another federal agency for purposes of National Security review (35 U.S.C. 181) and for review pursuant to the Atomic Energy Act (42 U.S.C. 218(c)).
7. A record from this system of records may be disclosed, as a routine use, to the Administrator, General Services, or his/her designee, during an inspection of records conducted by GSA as part of that agency's responsibility to recommend improvements in records management practices and programs, under authority of 44 U.S.C. 2904 and 2906. Such disclosure shall be made in accordance with the GSA regulations governing inspection of records for this purpose, and any other relevant (i.e., GSA or Commerce) directive. Such disclosure shall not be used to make determinations about individuals.
8. A record from this system of records may be disclosed, as a routine use, to the public after either publication of the application pursuant to 35 U.S.C. 122(b) or issuance of a patent pursuant to 35 U.S.C. 151. Further, a record may be disclosed, subject to the limitations of 37 CFR 1.14, as a routine use, to the public if the record was filed in an application which became abandoned or in which the proceedings were terminated and which application is referenced by either a published application, an application open to public inspection or an issued patent.
9. A record from this system of records may be disclosed, as a routine use, to a Federal, State, or local law enforcement agency, if the USPTO becomes aware of a violation or potential violation of law or regulation.

Notice of Allowability**Application No.**

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address--

All claims being allowable, PROSECUTION ON THE MERITS IS (OR REMAINS) CLOSED in this application. If not included herewith (or previously mailed), a Notice of Allowance (PTOL-85) or other appropriate communication will be mailed in due course. **THIS NOTICE OF ALLOWABILITY IS NOT A GRANT OF PATENT RIGHTS.** This application is subject to withdrawal from issue at the initiative of the Office or upon petition by the applicant. See 37 CFR 1.313 and MPEP 1308.

1. ☒ This communication is responsive to communication filed on March 11, 2011.
2. ☐ The allowed claim(s) is/are 175-204.
3. ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some* c) ☐ None of the:
1. ☐ Certified copies of the priority documents have been received.
2. ☐ Certified copies of the priority documents have been received in Application No. ____.
3. ☐ Copies of the certified copies of the priority documents have been received in this national stage application from the International Bureau (PCT Rule 17.2(a)).

* Certified copies not received: ____.

Applicant has THREE MONTHS FROM THE "MAILING DATE" of this communication to file a reply complying with the requirements noted below. Failure to timely comply will result in ABANDONMENT of this application.

THIS THREE-MONTH PERIOD IS NOT EXTENDABLE.

4. ☐ A SUBSTITUTE OATH OR DECLARATION must be submitted. Note the attached EXAMINER'S AMENDMENT or NOTICE OF INFORMAL PATENT APPLICATION (PTO-152) which gives reason(s) why the oath or declaration is deficient.
5. ☐ CORRECTED DRAWINGS (as "replacement sheets") must be submitted.
- (a) ☐ including changes required by the Notice of Draftsperson's Patent Drawing Review (PTO-948) attached
- 1) ☐ hereto or 2) ☐ to Paper No./Mail Date ____.
- (b) ☐ including changes required by the attached Examiner's Amendment / Comment or in the Office action of Paper No./Mail Date ____.
- Identifying indicia such as the application number (see 37 CFR 1.84(c)) should be written on the drawings in the front (not the back) of each sheet. Replacement sheet(s) should be labeled as such in the header according to 37 CFR 1.121(d).
6. ☐ DEPOSIT OF and/or INFORMATION about the deposit of BIOLOGICAL MATERIAL must be submitted. Note the attached Examiner's comment regarding REQUIREMENT FOR THE DEPOSIT OF BIOLOGICAL MATERIAL.

Attachment(s)

1. ☒ Notice of References Cited (PTO-892)
2. ☐ Notice of Draftsperson's Patent Drawing Review (PTO-948)
3. ☒ Information Disclosure Statements (PTO/SB/08),
Paper No./Mail Date See Continuation Sheet
4. ☐ Examiner's Comment Regarding Requirement for Deposit of Biological Material
5. ☐ Notice of Informal Patent Application
6. ☐ Interview Summary (PTO-413),
Paper No./Mail Date ____.
7. ☒ Examiner's Amendment/Comment
8. ☒ Examiner's Statement of Reasons for Allowance
9. ☐ Other ____.

/Charlie C Agwumezie/
Primary Examiner, Art Unit 3685
May 11, 2011

Continuation of Attachment(s) 3. Information Disclosure Statements (PTO/SB/08), Paper No./Mail Date: 11/01/00; 02/09/04; 02/04/11.

DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Arrienne M. Lezak on May 6, 2011.

Status of Claims

2. Claims 1-74 are cancelled. Claims 75-204 are allowed subject to the examiner's amendment.

3. The Application has been amended as follows:

1-174. (Cancelled).

175. (Previously Presented) A method, comprising:

receiving, using one or more processing units, a resource library at a calling entity, wherein the calling entity is located at a particular site, and wherein the resource library is a software resource library that includes a function, an embedded unique key, and an embedded text string specifying one or more use terms;

running, using the one or more processing units, an application at the calling entity, wherein the application includes an embedded copy of the unique key and a copy

of the text string, and wherein running the application includes using the resource library;

extracting, using the one or more processing units, the unique key and the text string from the resource library, wherein extracting includes using the function on the resource library;

determining, using the one or more processing units, the authenticity of the extracted unique key and the text string, wherein determining includes using the function on the resource library; and

determining, using the one or more processing units, whether the resource library is licensed for unrestricted use with any application at the particular site, wherein determining includes using the function on the resource library, and wherein extracting the unique key and the text string from the resource library, determining the authenticity of the extracted unique key and the text string, and determining whether the resource library is licensed for unrestricted use with any application at the particular site are based upon a license parameter.

176. (Previously Presented) The method of claim 175, wherein the license parameter is a site license, and wherein when the unique key and the text string extracted from the resource library are authentic and the resource library is licensed for unrestricted use with any application at the particular site, the calling entity is permitted to use the resource library while running the application.

177. (Previously Presented) The method of claim 175, wherein the license parameter is a site license, and wherein when the unique key and the text string extracted from the resource library are authentic and the resource library is not licensed for unrestricted use with any application at the particular site, the function on the resource library extracts the copy of the unique key and the copy of the text string from the application and determines whether the calling entity is licensed to use the resource library.

178. (Previously Presented) The method of claim 175, wherein the resource library includes executable code that is associated with one or more applications, and wherein the executable code provides additional functionality to an associated application.

179. (Previously Presented) The method of claim 175, wherein determining whether the calling entity is licensed to use the resource library includes determining whether the copy of the text string was validly issued by a resource library vendor.

180. (Previously Presented) The method of claim 179, wherein the copy of the text string includes one or more licensing terms, and wherein determining whether the calling entity is licensed to use the resource library further includes determining whether the one or more licensing terms have been met.

181. (Previously Presented) The method of claim 180, wherein when the calling entity is licensed to use the resource library, the calling entity is permitted to use the resource library while running the application, and the function on the resource library returns control to the calling entity.

182. (Previously Presented) The method of claim 180, wherein when the calling entity is not licensed to use the resource library, the function on the resource library generates an error message.

183. (Previously Presented) The method of claim 175, wherein the unique key is an identifier that is mathematically derived from the text string, and wherein the unique key is used to detect changes to the text string.

184. (Currently Amended) A system, comprising:
one or more processors;

one or more computer-readable storage mediums containing instructions ~~configured to cause the~~ that when executed by the one or more processors, cause the one or more processors to perform operations, including:

receiving a resource library at a calling entity, wherein the calling entity is located at a particular site, and wherein the resource library is a software resource library that includes a function, an embedded unique key, and an embedded text string specifying one or more use terms;

running an application at the calling entity, wherein the application includes an embedded copy of the unique key and a copy of the text string, and wherein running the application includes using the resource library;

extracting the unique key and the text string from the resource library, wherein extracting includes using the function on the resource library;

determining the authenticity of the extracted unique key and the text string, wherein determining includes using the function on the resource library; and

determining whether the resource library is licensed for unrestricted use with any application at the particular site, wherein determining includes using the function on the resource library, and wherein extracting the unique key and the text string from the resource library, determining the authenticity of the extracted unique key and the text string, and determining whether the resource library is licensed for unrestricted use with any application at the particular site are based upon a license parameter.

185. (Previously Presented) The system of claim 184, wherein the license parameter is a site license, and wherein when the unique key and the text string extracted from the resource library are authentic and the resource library is licensed for unrestricted use with any application at the particular site, the calling entity is permitted to use the resource library while running the application.

186. (Previously Presented) The system of claim 184, wherein the license parameter is a site license, and wherein when the unique key and the text string extracted from the resource library are authentic and the resource library is not licensed

for unrestricted use with any application at the particular site, the function on the resource library extracts the copy of the unique key and the copy of the text string from the application and determines whether the calling entity is licensed to use the resource library.

187. (Previously Presented) The system of claim 184, wherein the resource library includes executable code that is associated with one or more applications, and wherein the executable code provides additional functionality to an associated application.

188. (Previously Presented) The system of claim 184, wherein determining whether the calling entity is licensed to use the resource library includes determining whether the copy of the text string was validly issued by a resource library vendor.

189. (Previously Presented) The system of claim 188, wherein the copy of the text string includes one or more licensing terms, and wherein determining whether the calling entity is licensed to use the resource library further includes determining whether the one or more licensing terms have been met.

190. (Previously Presented) The system of claim 189, wherein when the calling entity is licensed to use the resource library, the calling entity is permitted to use the resource library while running the application, and the function on the resource library returns control to the calling entity.

191. (Previously Presented) The system of claim 189, wherein when the calling entity is not licensed to use the resource library, the function on the resource library generates an error message.

192. (Previously Presented) The system of claim 184, wherein the unique key is an identifier that is mathematically derived from the text string, and wherein the unique key is used to detect changes to the text string.

193. (Currently Amended) A computer-program product, ~~tangibly embodied in a machine-readable storage medium~~, including executable instructions that when executed, cause ~~configured to cause~~ a data processing apparatus to:

receive a resource library at a calling entity, wherein the calling entity is located at a particular site, and wherein the resource library is a software resource library that includes a function, an embedded unique key, and an embedded text string specifying one or more use terms;

run an application at the calling entity, wherein the application includes an embedded copy of the unique key and a copy of the text string, and wherein running the application includes using the resource library;

extract the unique key and the text string from the resource library, wherein extracting includes using the function on the resource library;

determine the authenticity of the extracted unique key and the text string, wherein determining includes using the function on the resource library; and

determine whether the resource library is licensed for unrestricted use with any application at the particular site, wherein determining includes using the function on the resource library, and wherein extracting the unique key and the text string from the resource library, determining the authenticity of the extracted unique key and the text string, and determining whether the resource library is licensed for unrestricted use with any application at the particular site are based upon a license parameter.

194. (Previously Presented) The computer-program product of claim 193, wherein the license parameter is a site license, and wherein when the unique key and the text string extracted from the resource library are authentic and the resource library is licensed for unrestricted use with any application at the particular site, the calling entity is permitted to use the resource library while running the application.

195. (Previously Presented) The computer-program product of claim 193, wherein the license parameter is a site license, and wherein when the unique key and the text

string extracted from the resource library are authentic and the resource library is not licensed for unrestricted use with any application at the particular site, the function on the resource library extracts the copy of the unique key and the copy of the text string from the application and determines whether the calling entity is licensed to use the resource library.

196. (Previously Presented) The computer-program product of claim 193, wherein the resource library includes executable code that is associated with one or more applications, and wherein the executable code provides additional functionality to an associated application.

197. (Previously Presented) The computer-program product of claim 193, wherein determining whether the calling entity is licensed to use the resource library includes determining whether the copy of the text string was validly issued by a resource library vendor.

198. (Previously Presented) The computer-program product of claim 197, wherein the copy of the text string includes one or more licensing terms, and wherein determining whether the calling entity is licensed to use the resource library further includes determining whether the one or more licensing terms have been met.

199. (Previously Presented) The computer-program product of claim 198, wherein when the calling entity is licensed to use the resource library, the calling entity is permitted to use the resource library while running the application, and the function on the resource library returns control to the calling entity.

200. (Previously Presented) The computer-program product of claim 198, wherein when the calling entity is not licensed to use the resource library, the function on the resource library generates an error message.

201. (Previously Presented) The computer-program product of claim 193, wherein the unique key is an identifier that is mathematically derived from the text string, and wherein the unique key is used to detect changes to the text string.

202. (Previously Presented) A method, comprising:

receiving, using one or more processing units, a resource library at a calling entity, wherein the calling entity is located at a particular site, wherein the resource library is a software resource library that includes a function, an embedded unique key, and an embedded text string specifying one or more use terms, wherein the resource library includes executable code that is associated with one or more applications, and wherein the executable code provides additional functionality to an associated application;

running, using the one or more processing units, an application at the calling entity, wherein the application is associated with the resource library, wherein the application includes an embedded copy of the unique key and a copy of the text string, and wherein running the application includes using the resource library; and

using, using the one or more processing units, the function on the resource library to extract the unique key and the text string from the resource library, determine the authenticity of the extracted unique key and the text string, and determine whether the resource library is licensed for unrestricted use with any application at the particular site, wherein:

when the unique key and the text string extracted from the resource library are authentic and the resource library is licensed for unrestricted use with any application at the particular site, the calling entity is permitted to use the resource library while running the application, and

when the unique key and the text string extracted from the resource library are authentic and the resource library is not licensed for unrestricted use with any application at the particular site, the function on the resource library extracts the copy of the unique key and the copy of the text string from the application and determines whether the calling entity is licensed to use the resource library.

203. (Currently Amended) A system, comprising:

- one or more processors;

- one or more computer-readable storage mediums containing instructions ~~configured to cause the~~ that when executed by the one or more processors, cause the one or more processors to perform operations, including:

 - receiving a resource library at a calling entity, wherein the calling entity is located at a particular site, wherein the resource library is a software resource library that includes a function, an embedded unique key, and an embedded text string specifying one or more use terms, wherein the resource library includes executable code that is associated with one or more applications, and wherein the executable code provides additional functionality to an associated application;

 - running an application at the calling entity, wherein the application is associated with the resource library, wherein the application includes an embedded copy of the unique key and a copy of the text string, and wherein running the application includes using the resource library; and

 - using the function on the resource library to extract the unique key and the text string from the resource library, determine the authenticity of the extracted unique key and the text string, and determine whether the resource library is licensed for unrestricted use with any application at the particular site, wherein:

 - when the unique key and the text string extracted from the resource library are authentic and the resource library is licensed for unrestricted use with any application at the particular site, the calling entity is permitted to use the resource library while running the application, and

 - when the unique key and the text string extracted from the resource library are authentic and the resource library is not licensed for unrestricted use with any application at the particular site, the function on the resource library extracts the copy of the unique key and the copy of the text string from the application and determines whether the calling entity is licensed to use the resource library.

204. (Currently Amended) A computer-program product, ~~tangibly embodied in a machine-readable storage medium~~, including executable instructions that when executed, cause ~~configured to cause~~ a data processing apparatus to:

receive a resource library at a calling entity, wherein the calling entity is located at a particular site, wherein the resource library is a software resource library that includes a function, an embedded unique key, and an embedded text string specifying one or more use terms, wherein the resource library includes executable code that is associated with one or more applications, and wherein the executable code provides additional functionality to an associated application;

run an application at the calling entity, wherein the application is associated with the resource library, wherein the application includes an embedded copy of the unique key and a copy of the text string, and wherein running the application includes using the resource library; and

use the function on the resource library to extract the unique key and the text string from the resource library, determine the authenticity of the extracted unique key and the text string, and determine whether the resource library is licensed for unrestricted use with any application at the particular site, wherein:

when the unique key and the text string extracted from the resource library are authentic and the resource library is licensed for unrestricted use with any application at the particular site, the calling entity is permitted to use the resource library while running the application, and

when the unique key and the text string extracted from the resource library are authentic and the resource library is not licensed for unrestricted use with any application at the particular site, the function on the resource library extracts the copy of the unique key and the copy of the text string from the application and determines whether the calling entity is licensed to use the resource library.

4. Claims 75-204 are allowed.

Reasons for Allowance

5. The following is an examiner's statement of reasons for allowance:

The closest prior art of record is Fischer U.S. Patent No. 5,412,717.

Applicant's invention is directed to a system and method for receiving, using one or more processing units, a resource library at a calling entity, wherein the calling entity is located at a particular site, and wherein the resource library is a software resource library that includes a function, an embedded unique key, and an embedded text string specifying one or more use terms; running, using the one or more processing units, an application at the calling entity, wherein the application includes an embedded copy of the unique key and a copy of the text string, and wherein running the application includes using the resource library; extracting, using the one or more processing units, the unique key and the text string from the resource library, wherein extracting includes using the function on the resource library; determining, using the one or more processing units, the authenticity of the extracted unique key and the text string, wherein determining includes using the function on the resource library; and determining, using the one or more processing units, whether the resource library is licensed for unrestricted use with any application at the particular site, wherein determining includes using the function on the resource library, and wherein extracting the unique key and the text string from the resource library, determining the authenticity of the extracted unique key and the text string, and determining whether the resource library is licensed for unrestricted use with any application at the particular site are based upon a license parameter.

Fischer is directed to a method and apparatus including a system monitor which limits the ability of a program about to be executed to the use of predefined resources (e.g., data files, disk writing capabilities, etc.). The system monitor processes a data structure including a set of authorities defining that which a program is permitted to do and/or that which the program is precluded from doing. The set of authorities and/or restrictions assigned to a program to be executed are referred to as "program authorization information" (or "PAI"). Once defined, the program authorization information is thereafter associated with at least one program to be executed to thereby delineate the resources and functions that the program is allowed to utilize and/or is not allowed to utilize. Accordingly, Fischer separately or in combination with any other reference of record fails to disclose or suggest all the elements of the claimed invention. Fischer fails to disclose, teach, or suggest the novel feature related to the wherein the resource library is a software resource library that includes a function, an embedded unique key, and an embedded text string specifying one or more use terms; running, using the one or more processing units, an application at the calling entity, wherein the application includes an embedded copy of the unique key and a copy of the text string, and wherein running the application includes using the resource library; extracting, using the one or more processing units, the unique key and the text string from the resource library, wherein extracting includes using the function on the resource library; determining, using the one or more processing units, the authenticity of the extracted unique key and the text string. Thus the claims of the present invention are patentable over the prior art of record.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

7. The prior arts made of record and not relied upon is considered pertinent to applicants disclosure.

- Peek (U.S. Patent No. 5,481,706) discloses system and method for creating thread-safe shared libraries.
- Wyman (U.S. Patent No. 5,204,897) discloses management interface for license management system.
- Ross (U.S. Patent No. 5,553,143) discloses method and Apparatus for electronic licensing.
